PERSONAL PROFILE

Currently working as a Medical Lab Assistant, I am seeking to transition into a Software or DevOps Engineer career. I aim to apply my analytical mindset, quick learning ability, and passion for technology in a challenging role, where I can make meaningful contributions and grow. Additionally, my fluency in Arabic and English enhances my ability to collaborate with diverse teams and clients. Driven by the ever-evolving field of technology, I aspire to build a career that aligns with my passion.

EDUCATION

Skills City, AI Driven Software Engineering Bootcamp | Dec 2024 – Present
HTML, CSS, Python, SQL, Git, JavaScript, React, Node.js, Django, APIs, AI, Microsoft Azure and *Cloud Computing.*

Kingston University, London | *2018 – 2022*   *First Class Honours* in Biomedical Science

PROJECTS

Name	Description	Tech Stack
Random Password	A webapp password generator that allows users to generate random passwords with customizable options.	JavaScript, HTML, CSS, AWS
Biomorph Bistro (Group Project)	A **React-based** webapp with **API** integration, allowing users to make online reservations.	JavaScript, HTML, CSS, React
The Noteriser	A webapp to manage notes, developed through **Docker** and designed through **Tailwind**.	JavaScript, HTML, CSS, Node.js, ExpressJS, MongoDB, Docker, Tailwind

SKILLS

Pair Programming: Experienced in pair programming, effectively collaborating to improve code quality and problem-solving through shared expertise.

Teamwork and Collaborative research: Collaborated on a project, researching harlequin ichthyosis and was selected for the university's 'Bright Ideas' competition.

Time Management: Proficient in handling multiple tasks, consistently meeting deadlines, and upholding high standards under pressure. Refined time management by balancing ambassador responsibilities with academic commitments.

EXPERIENCE

Medical Lab Assistant | TDL – The Halo, London   *Jun 2021 - Apr 2022 | Jun 2023 – Current*

- Follow Standard Operating Procedures (SOPs) and maintain Good Laboratory Practice (GLP) in a demanding environment.
- Test medical samples precisely and handle patient data entry in compliance with GDPR, under strict turnaround times.
- Utilize the WinPath system for data management and trained in using specialized laboratory equipment, such as QuantStudio.

Student Ambassador | Kingston University, London   *Sep 2018 – Apr 2022*

- Developed leadership skills by leading classes of 20+ students from various age groups, adapting to their different needs and learning styles.
- Gained teamwork experience by collaborating with other ambassadors to coordinate event roles and responsibilities.

Student Administration | Kingston University, London   *Jul 2020 - Oct 2020*

- Entered sensitive personal data into university systems, while ensuring confidentiality and compliance with university policies.
- Assisted with the university's clearing and enrolment process by responding to inquiries, providing prospective students with guidance.

Telephone Interviewer | IFF Research, London   *Sep 2020 - Oct 2020*

- Achieved high response rates by managing graduate survey participation.
- Helped gather data from graduates, supporting IFF Research in providing valuable insights for regulatory decisions.

Sales Associate | Gap, London   *Aug 2017 - Sep 2017 | Oct 2019 - Mar 2020*

- Delivered customer service in fast-paced environments, gained insight into the retail sector and established strong rapport with customers.
- Trained and onboarded new employees, sharing knowledge and best practices acquired to enhance team efficiency.

INTERESTS

- **Muay Thai Kickboxing:** Attend weekly sessions, connecting with a diverse community that shares common interests.
- **Volunteering:** Engage in volunteering at events and charities to support and build valuable connections within the community.
- **Swimming:** Swim weekly to enhance skills and maintain a balanced work-life routine, boosting fitness and overall health.
- **Programming:** Utilize academic platforms to complete coding challenges and advance skills.
